# Who we are

Forward Together UK is a small and personalised training provider which aims to meet the needs of forward thinking private, public and voluntary sector organisations seeking to develop a highly motivated workforce equipped with the latest skills in leadership and management.

## **CONNECTING LEADERSHIP THEORY TO REALITY**

FTUK seeks to help aspiring managers and leaders make connections between their workplace responsibilities and the current thinking in leadership, enabling each of our participants to make a real difference. Our courses, whether pre-packaged or designed for your own needs, seek to achieve this goal through a mixture of learning styles.

## **STRENGTHENING TEAM VISION**

FTUK seeks to promote the core values of a “one team ethos”. We provide an intensive period of training which combines innovative activities with reflections on current practice and thinking in the world of team building. It is our aim to encourage every participant to build upon their own experiences, leaving our course with a deeper understanding of both the theoretical and practical challenges of being an effective team player.

## **A FORWARD THINKING TRAINING TEAM**

At FTUK we have brought together a well experienced team of trainers who offer the best in innovative training together with a uniquely memorable and enriching experience for all participants to learn from.

*We welcome interest from aspiring managers, managers, team leaders, senior managers, and people in organisations wishing to improve their leadership and team skills.*

# What we do

**Our residential two day courses are carefully designed to maximise effective leadership or team cohesion and are presented at the comfortable Burton Hotel in Kington, Herefordshire. Synopses of our courses are as follows.**

## **COURSE 1 : BUILDING EFFECTIVE LEADERSHIP AND MANAGEMENT SKILLS**

This course aims to explore the characteristics of leadership and unleash the leadership potential in each of us. During this course you will explore your own leadership style by participating in innovative indoor and outdoor activities. You will discover the advantages of situational leadership and undertake an assessment of your own innate skills for leadership. For full details take a look at our website or contact us.

## **COURSE 2 : BUILDING EFFECTIVE TEAMS**

This course aims to combine innovative indoor and outdoor activities in an interactive environment; enabling us to explore the nature of team building and how to manage our teams more effectively. Individual delegates will bring their own unique experience to each session and will be suitably equipped, at the end, to value the different range of skills and abilities team players bring to organisational success. For full details take a look at our website or contact us.

## **CPD CERTIFICATION AND ONGOING SUPPORT**

All delegates can gain CPD points from attending our training events. If you wish we will provide you with proof of your attendance and help you to assess the contribution participation will make to your CPD portfolio.

In addition all our participants receive up to six months of on-line support.

***Besides all our regular workshop events our team is happy to advise any organisation on a suitable bespoke training package. Contact us for more details***
